

**AMENDMENT TO THE SPECIFICATION:**

Please replace 6<sup>th</sup> paragraph of column 5 with the following amended paragraph:

The case where the user dose not turn [the] a screen body ~~[[11]] 1101~~ is the same as the conventional case, and, therefore, the operation of this case will be omitted. The case where the user turns the screen body ~~[[11]] 1101~~ clockwise by 90 degrees will be described.

Please replace 11<sup>th</sup> paragraph of column 7 with the following amended paragraph:

In this manner, if the user has turned the display panel 1100 by 90 degrees clockwise, the R-G-B signals of the on-screen display are displayed after being pivoted and, therefore, the letters and figures of the on-screen display 1104 are displayed on a screen 1103 of the screen body 1101 of the display panel 1100 in the normal manner as seen by the user. This is illustrated in FIG. 10.
